RIO Creamy Chocolate Concentrate

The Future of Hot Chocolate

- Most instant hot chocolates are powders — clumpy, thin, and far from the café experience.
- RIO changes the game with *a liquid chocolate concentrate* made with cocoa, cocoa butter, vegetable fats, milk for *unmatched creaminess*.
- ✓ Creamier & Richer — the texture of real melted chocolate in seconds.
- ✓ No Clumps, No Fuss — dissolves instantly in hot water or milk.
- ✓ Versatile — hot chocolate, iced drinks, frappés, desserts, or baking.
- ✓ For Everyone — available in consumer packs, barista bottles, and professional vending solutions.

With RIO, hot chocolate finally becomes as indulgent, smooth, and easy as it should be.

Pure Creamy Indulgence — Anytime, Anywhere.
